OLD ABE EAGLE, Vol. IV, No. 16.  
NEW MEXICO INTERPRETER, VOL. VII, No. 11

WHITE OAKS, LINCOLN CO., NEW MEXICO, THURSDAY, MARCH 7, 1895.

WHOLE No. 504.

THE Chicago Times has been absorbed by the Herald and the two papers now appear as one with a hyphenated head.

THE Territorial supreme court has reversed the decision of Judge Laughlin in the extra-employees-highway-hold-up case for which the late legislature was responsible, and the rollicking taxpayers will have to dig up the stuff.

THE marriage of Miss Annie Gould furnished the correspondents and cabbage-headed editors a long-wished for opportunity to make fools mit demselves alretty, and it is unnecessary to say the opportunity was not wasted. Miss Gould was free-born and nobody has any right to question where she should bestow her heart and hand simply because she happens to be rich.

CONGRESS has adjourned, and it must be admitted that it has been a disappointment to Democrats who had fondly hoped that with the complete triumph of their party in 1892 an era of government in the interest of the people, and consequently of better times, was to be ushered in. But it has not. Why not it is hardly worth while to discuss. But we may say that many who wear the time-honored name of Democrat and have sought and obtained place and power under that name have despised and dishonored the name. This is emphatically true of the head of the administration, who naturally put men into his cabinet who could be depended on to do his bidding. Then came the first lapse from party principle when the extra session, under the pressure of patronage to be withheld, was enjoined or forced into the repeal of what little was left of law favoring silver. This force was applied with most telling effect on the House, which soon came to terms while the Senate yielded after a longer battle. Then, in the regular session, followed the protracted struggle over the tariff bill, which had been framed in accordance with Democratic platform demands and was promptly passed by the House only to be butchered and mangled in the Senate until scarcely recognizable in letter or spirit when it returned to the place of its birth; and it finally became a law without executive approval. The odor of boodle hung suspiciously in the neighborhood of certain ones high in the councils of the party, but who betrayed its confidence. The people's disappointment was voiced in the humiliating overthrow Democracy suffered at the polls last November. The brilliant opportunity of a generation had been thrown away, perhaps not to be regained in many years. The continued warfare in favor of gold to the exclusion of silver in our monetary system and the increase of the interest-bearing debt since the election through the issue of bonds seem intended to make doubly sure another disaster to the party of the fathers, which is in the situation of the fellow who started for Jericho, except that the Good Samaritan is not yet in sight. The rank and file of the party are true to the ancient faith and they must force the leaders back to it or prepare to camp in outer darkness for a long time.

THE EAGLE would like to see two or three more of the promising prospects in this camp developed into paying mines this spring. But it will take some money to do it. Something can not be had for nothing in mining any more than in any other business. \$5,000 to \$10,000 would go a long way on several partially developed claims which have been worked to points beyond the reach of bare muscles. So long, however, as White Oaks people cover their candle with a barrel the capital will not be forthcoming. It will require some hustling.

THE Japanese government is summoning its subjects in foreign countries to return home for service in their native land. A number of Japs are serving in the German army, and many others are students in the colleges of this and other countries.

CAPT. JOHN P. HYLAND, late of the Lincoln *Shift*, is said to be in Mexico making overtures to President Diaz to raise a company of American troops and brush Guatemala off the map.

Letters of inquiry from people wanting to engage in almost all kinds of business continue to come to individuals, the postmaster and the newspaper asking for information regarding this particular section. This shows that White Oaks is attracting wide attention, and that if it should become certain that a railroad is to be built in here, giving us easy communication with the rest of the world, the town would immediately enter upon a new era of growth that could not but be beneficial to those now in business or having property interests here. But it also shows as a present want a better means of dissemination of information concerning the section of which this is the center. Individuals, postmasters and newspaper men cannot afford to spend the time necessary to satisfactorily answer the inquiries made by correspondents many of whom want detailed data on half a dozen different matters, to give which would require much writing. The EAGLE has suggested before, and renews the suggestion, that the town ought to have an organization for the purpose of promoting the healthy development of the community, to which all letters of inquiry could be referred. It could collect and arrange data, and its secretary would always be able to attend to the correspondence properly. The expense of maintaining such an organization need not be much, and the work concerns the community. Many of the letters may be from parties who write out of curiosity, or who might be of little value to the community, but many more are written in good faith by parties who would be valuable acquisitions. All inquiries should be properly answered.

A dispatch from Amarilla, Texas, to a Fort Worth paper states that ties are being accumulated in large quantities at that point. Amarilla might be on either the White Oaks or the Roswell railway extension, but it seems that if the material is not for the Fort Worth road itself it is most probably for the P. V., which the valley people feel sure will be extended this summer.

The move to construct a good freight road from Roswell to White Oaks is a step in the right direction. Roswell and White Oaks should have closer commercial relations, and a good road will promote them.

Frank Wickersham, who had spent the last four months at the Gumm saw mill in the Capitanas, returned to town Tuesday. He will go to swell the population of the Jicarillas.

DRESSMAKING—I am prepared to do all kinds of Dressmaking, Sewing &c., and would be pleased to have a share of the patronage. Residence, old Academy building. Miss MAY MORROW.

A child of Mr. and Mrs. Wm. Alexander of Texas Park died last Monday of scarlet fever.

The Military Institute at Roswell is to get \$7,000 a year for support in addition to the \$15,000 in bonds for buildings.

Gallup has issued \$7,000 in bonds for building a new school house, and is advertising for bids on the construction.

\$7,143,800 in gold, 491,000 silver dollars and \$57,300 in minor coins are said to have been added to our stock of cash in 1894.

The town of Bland is elated over the prospect of having a fifty-ton stamp mill in operation there within the next two months. It will work ores from the Co-chiti mines.

Ziegler Bros. are showing some very nice early spring Patterns of Gingham, Calicos, Sateens etc., which they received a few days ago.

The Roswell Register says: The wagon road from here to White Oaks will be put in first-class condition. It will cost nearly \$3,000, and Mr. Hagerman has subscribed \$1,500 of the amount.

A young man named Bob Payne was accidentally killed a few days ago near Musgrave's ranch in the Pecos valley by the discharge of his revolver, which fell from his pocket while he was stooping and struck the hammer against the ground.

Roswell Register: Any one who knows the whereabouts of Frank Overman, Jas. Mills, or Charles Crofford will do us a favor by informing us. They left the vicinity of Colorado, Texas, some months ago for a hunting trip in the mountains west of Roswell and have not been heard from.

The new board of immigration appointed by the Governor is composed of the following gentlemen: Frank A. Manzanarez, Elias Stover, L. B. Prince, Jas. A. Baird, James K. Livingston, M. M. Salazar, Romero Gonzales, Pedro Sanchez, William Locke, Henry Grant, Max Frost, Jose G. Chaves, Nicolas Galles, J. G. Clancy, Joseph E. Sheridan, W. O. Norman, J. J. Leeson, C. C. Blodgett, G. A. Richardson, J. G. Albright.

Lincoln News: The dance given by Troop A, First Cavalry, was a grand success and was pronounced by all present to surpass all hops ever held at this post. The dance was well attended by the Lincoln and Stanton folk. Supper was served at midnight. The tables were well supplied with choice eatables and twenty-eight couples were seated at the first table, with as many more at the second.

A dispatch from San Francisco says: San Francisco agents of China and Japan bankers are checking the flow of silver from Colorado, Utah and Nevada to the Orient by way of New York, and are shipping bullion to Hong Kong and Yokohama from this port. Silver shipments are increasing monthly. A local smelting concern separates gold and silver in the bullion, after which the silver is re-shipped abroad in solid bars. The cost of shipping \$1,000 in fine silver from Denver to Hong Kong, via New York and London is \$19.06, and by way of San Francisco \$14. The Bank of California and a French bank have in a large measure changed the flow of the immense silver output, which is pronounced a commercial triumph for San Francisco. China, Japan and other Oriental countries have for years been the largest consumers of silver in the world, having received through San Francisco and London during the past six years \$342,000,000.

## EVERYTHING GOES

Except the Cook and the Cook Stove and Three Joins of Pipe.

That's Our Fix.

We need MONEY and ROOM.

Our Mr. Sol Wiener will be in the Eastern markets during the next two or three weeks and we MUST in the meantime clear off our shelves and tables of all of this season's goods to make way for the new Spring and Summer Stock.

Our great CASH SALE last week was, in truth an "Eye-Opener" and showed to all who took advantage of it, that we mean just what we advertise.

Prices Don't Count.  
Come and See for Yourself.

La Voz de Las Vegas contained a news note that Porfirio Trujillo, the Mexican bad man who was arrested in this county last summer by deputy sheriffs John Preston and Buck Goyne and turned over to the sheriff of San Miguel county, has been released on his own recognizance on recommendation of the district attorney.

One of the very neatest and best publications that comes to the EAGLE office is The Southwestern Magazine of Albuquerque. It is always attractive and always filled with readable matter.

The legislature, as one of its last acts, appropriated \$2,500 to promote the success of the irrigation congress to be held in Albuquerque in September.

A recent mining decision in the interior department is that where land is taken up in sections or large bodies as a placer ground, the precious metal must be discovered on each 20 acres, and that the location does not hold for those 20 acres in the tract that do not show the metal.
